Custom Glass Furniture

Transparency offers various solutions for **Designer Glass Furniture** that are responding to your custom needs.

Transparency introduces a unique concept of contemporary glass furniture. Our heritage is translated in the development of CUSTOM GLASS FURNITURE. Arising from an over 20+ years experienced architectural glass solutions we prove our knowledge and passion in the use of glass and match to any designer's creativity. We satisfy any type of project.

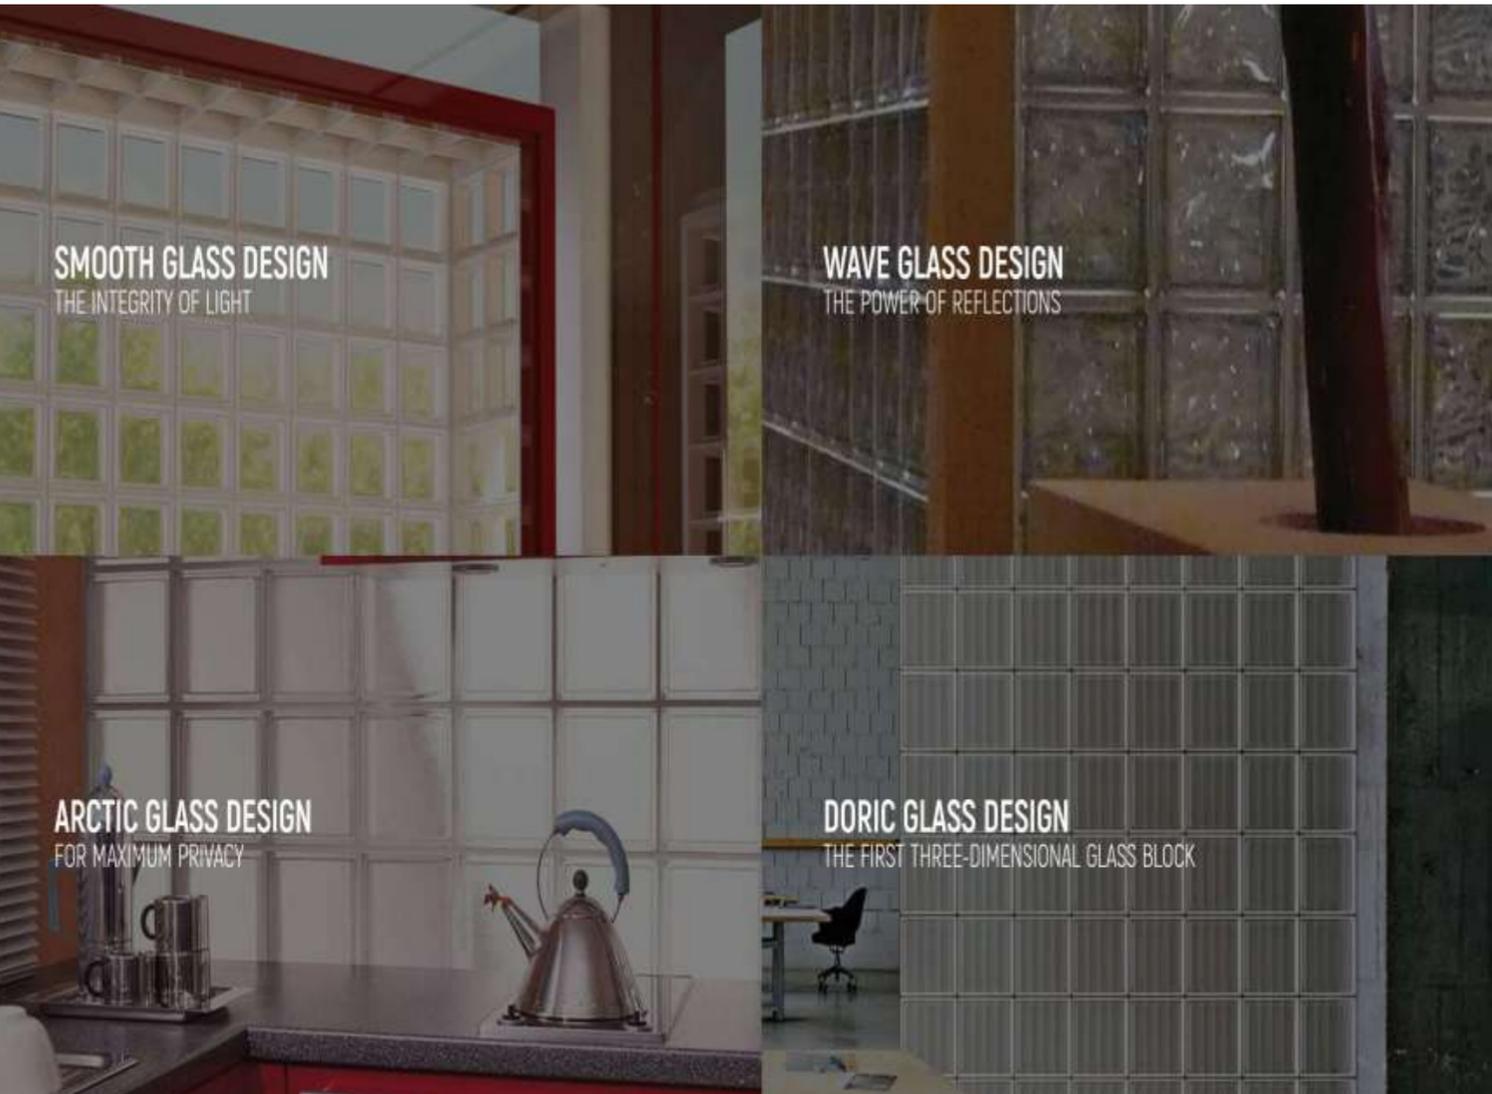

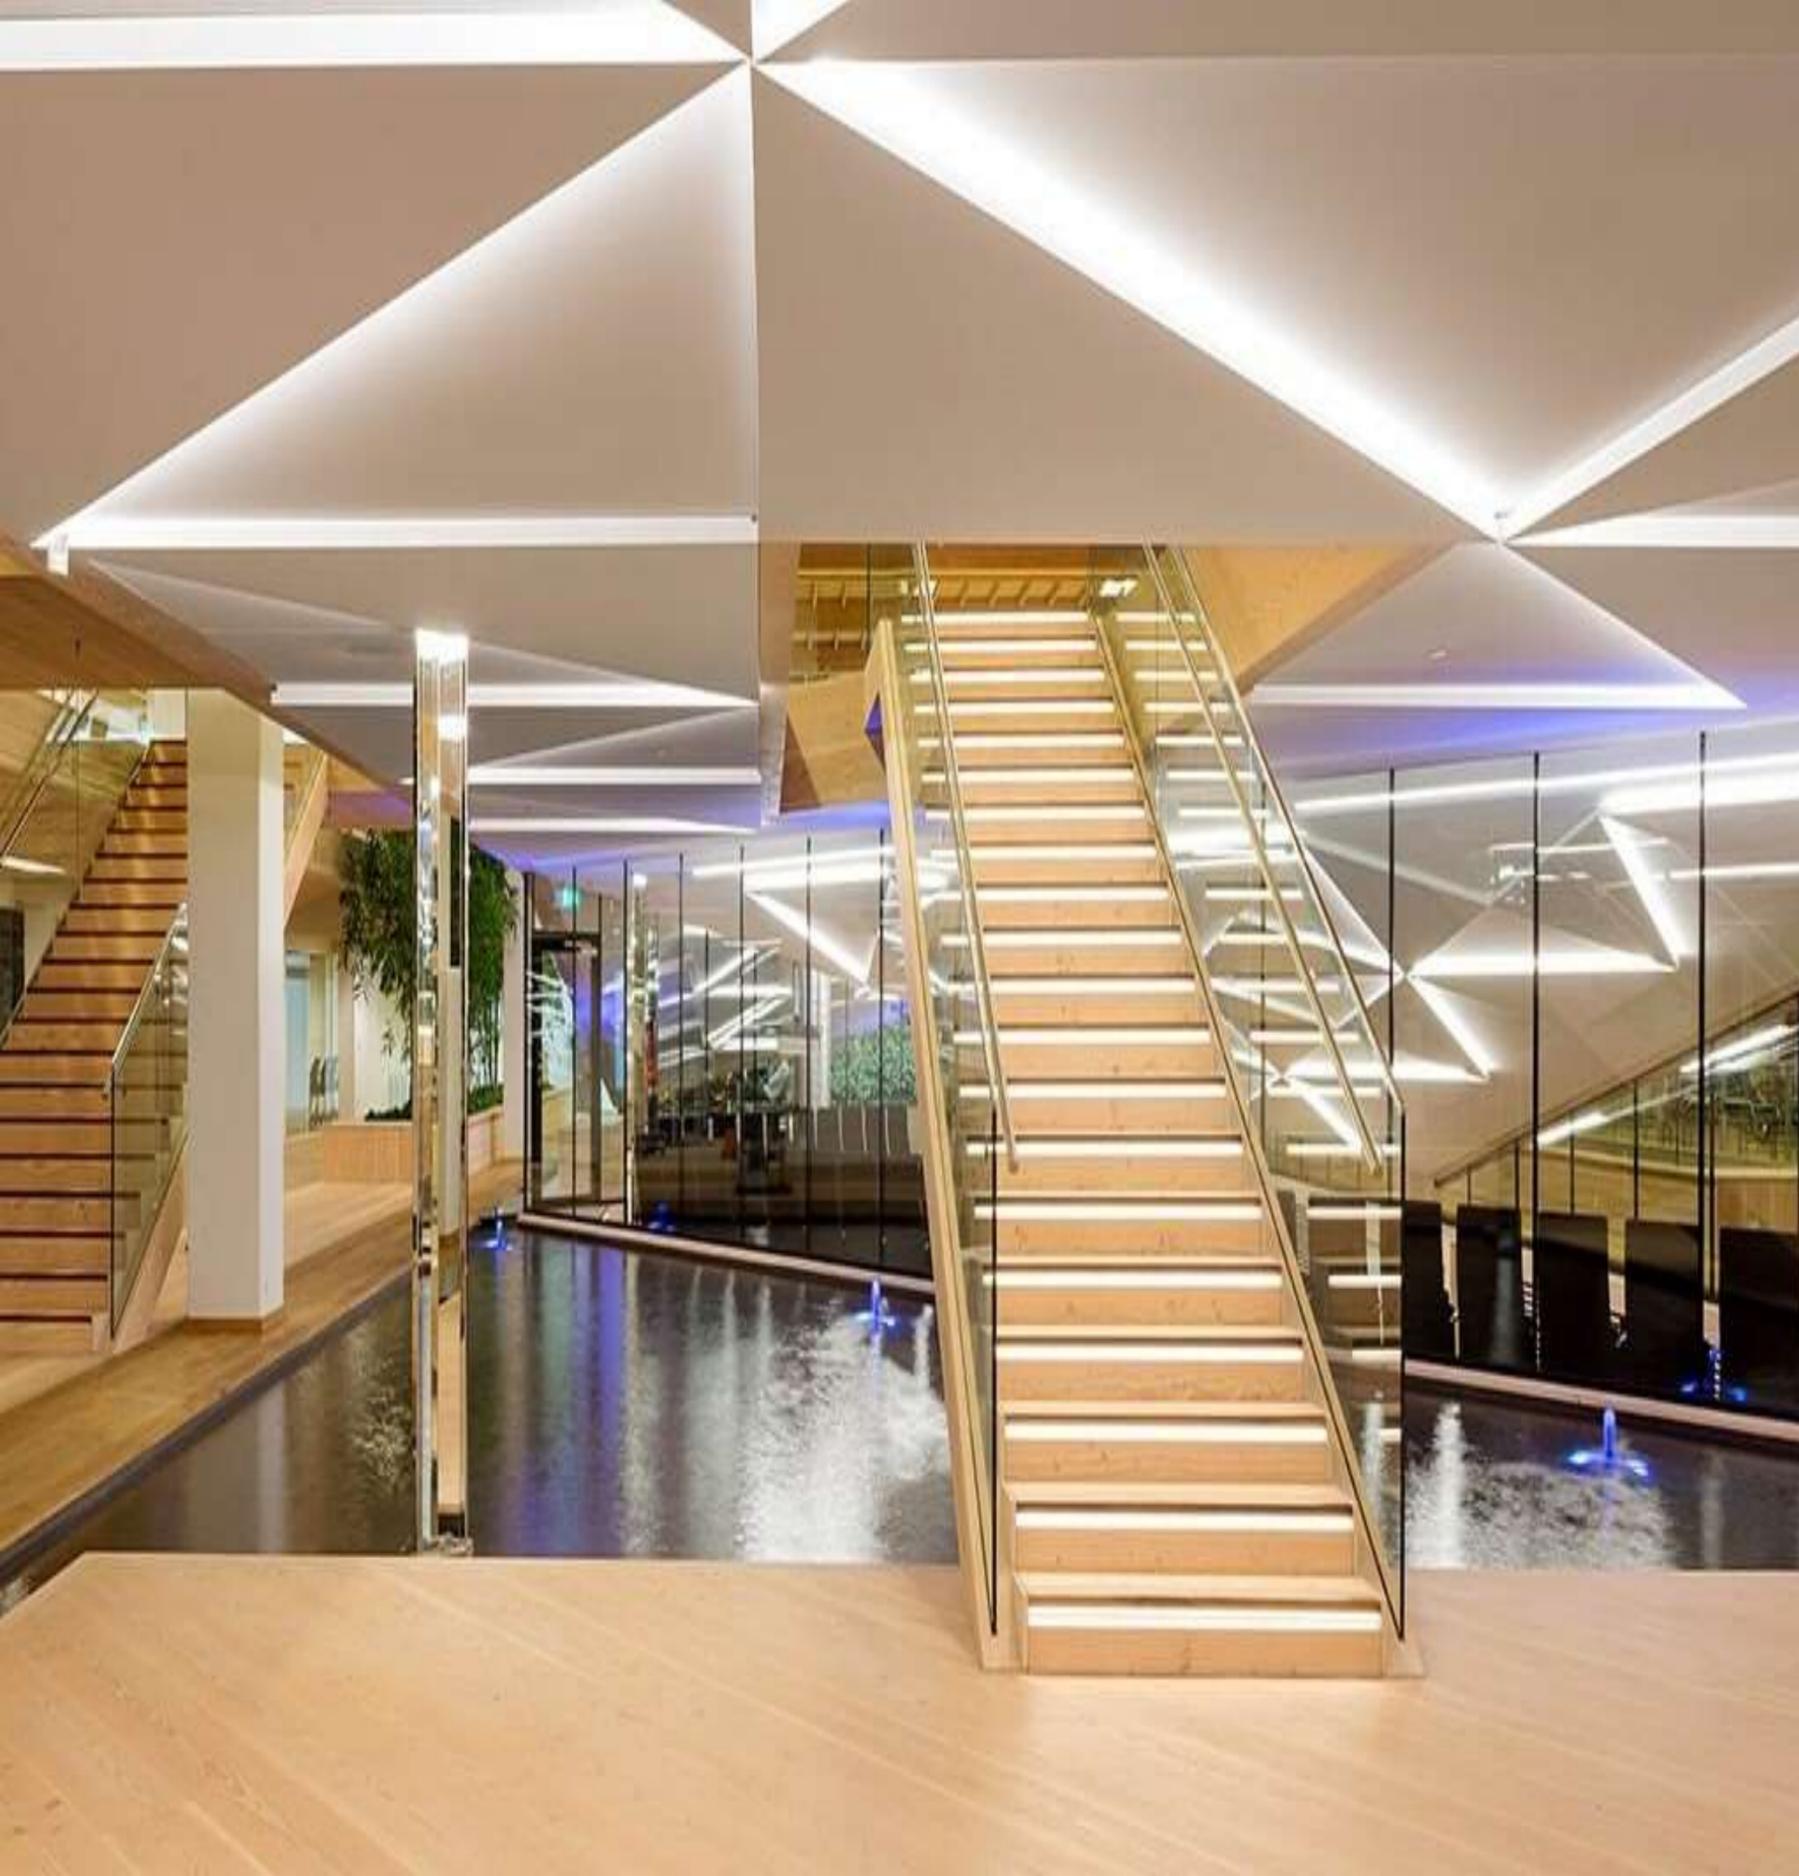

Imported Glass Blocks (Bricks)

Transparency offers various solutions for Glass Bricks (Blocks) that will respond to your customized needs. Transparency offers award winning **European Brand Seves Glass Brick** Products and solutions.

Seves is a leading European brand that offers Designer Glass Bricks products and solutions.

The success of SevesGlassblock is the result of a clear objective: to transform glass blocks from simple building materials into architectural and artistic elements, liberating their potential and providing architects, designers and interior designers with a new element to use in the creation of high-level, formal aesthetic creations. SevesGlassblock combines the tradition and extensive experience of Vetroarredo, Vitrablok and Solaris: industrial groups that embody the history of glass blocks and are respectively synonymous with high quality design, decorative glass art and cutting-edge, high-performance technology solutions. All this comes together in the Vitrabloks.r.o. plant in Bohemia, a historic region of the Czech Republic in Europe where glass manufacturing has very ancient origins

Ceiling & Wall System

Transparency offers various solutions for **Imported next generation Ceiling and Wall Systems** that responds to your custom design needs. Transparency offers award winning **Global Brand Clipso Ceiling and Wall Systems** Products and solutions.

The Concept

CLIPSO® provides a performance-driven solution to covering your ceilings and walls. For both renovation projects and new construction, commercial and residential, the CLIPSO range of coverings and profiles offer versatile solutions to meet all of your interior design needs. CLIPSO coverings can be custom printed and/or illuminated, custom bent and also have acoustical properties.

Wood Products

Transparency offers various solutions for next generation Wood Products and Solutions that responds to your custom design needs. Transparency offers Best Brands that include **TrySquare**, **GreenPanel** and **Inovar**.

Transparency brings you new concepts in wood products that includes:

- Wood Flooring (Solid Wood Flooring & Engineered Wood Flooring)
- Wood Decks
- Wood Clads
- Wood Staircase Treads

Plywood

Transparency offers various Plywood Products that responds to your custom design needs. Transparency brings best brands such as **GreenPanel Plywood, Amul Plywood** and solutions.

Custom-made furniture for your home and office is like a work of art – everything from the first piece of wood to the final finished product deserves the greatest attention to detail. Naturally, there's no room for compromise on quality or execution. We start this cycle of no-compromises from the very beginning.

Our Brand Partner **Greenpanel** India's largest wood panel manufacturer is committed to building a portfolio of the most advanced products to cater to the rapidly evolving needs of India's interiors industry. From leading architects, interior designers and dealers and wood contractors, our products are a trusted choice for everyone

Greenpanel Plywood

Amul Plywood

Laminates

Transparency offers various Laminates Products that responds to your custom design needs. Transparency offers award winning Brands such as **Amulya Mica** laminate offers Laminate Products and solutions.

VENEERS

Transparency offers various Exotic Veneer Products that responds to your custom design needs. Transparency brings best brands such as **GreenPanel Veneer** products and solutions.

We offer an exclusive range of unique and exotic designs. Each veneer is assembled and designed to enhance its natural beauty. The veneer face is imported from Europe and Burma. The main features of our Veneer are joint-less decorative sheets, no undulation after polishing because of defect-free smooth surface base ply, no gap or overlap of decorative veneer in surface layer, and no chip-off on cutting.

DOORS

Flush Doors & FIRERETARDANT Doors

Transparency offers various Door Products that responds to your custom design needs. Transparency brings best brands such as **GreenPanel Doors & Amulya products** and solutions

Greenpanel Doors have high dimensional accuracy and stability, even in varying humidity. The core is made using Quadra Pro Technology and thicker glue. Solid wood filler gives these doors superior screw-holding capacity and makes them resistant to shock and buckling. The doors have wider frames, and feature rails and stiles made with imported wood.

Doors are also available with decorative veneered surface in horizontal or vertical grain.

Greenpanel Decorative Doors are available in three variants: Greenpanel Natural Teak Doors are made with seasoned timbers that are treated with preservatives to improve their natural durability.

FLOORING

We have **Inovar Flooring** and it is the **world's MOST Water Resistant Laminate Flooring** made from hardwood fibers from sustainable resources. As a leading producer of laminate flooring in Malaysia as well as in Asia

Based on research conducted in 2011 among architects, designers & contractors who are specifiers / recommenders of laminate flooring
